(2) MDP quotas are determined by the relevant faculty administrative board within the scope of the relevant regulations and announced by the RO.

(3) Quotas are determined on an academic year basis. The distribution between semesters can be set up according to the applications.

(4) The implementation, curriculum changes and adjustment principles employed in major programs are also valid for the MDP,

(5) MDP is a certificate program independent of the registered major program of the student.

(6) It is not possible to enroll in more than one MDP at the same time. However, it is possible to enroll in a DMP program in a different field than a MDP at the same time as the major program.

(7) For students who are admitted to the MDP, the student's MDP curriculum is prepared by the major program advisor and the MDP advisor in cooperation. The following principles are to be considered during the preparation of this program:

- a) Students attending their MDP study must take at least six courses from MDP with at least 18 credits in addition to all the courses of their major program.
- b) These 18 credits do not apply as credits to fulfill the requirements of the student's major/DMP program.

- (4) Applications are finalized as "accepted" or "rejected" with the recommendation of the department offering the MDP and the decision of the relevant faculty administrative board.
- (5) With the recommendation of the department offering the MDP and the decision of the relevant faculty board, the courses taken in the DMP can be counted towards the MDP, provided that the student quits the DMP. Adjustment procedures include the following:
- a) An adjustment form must be filled out,
 - b) The courses that the student has taken or are exempted from in the DMP those will be counted towards the MDP must be indicated in the adjustment form.
 - c) The courses counted in the program are to be included in the student's GPA in the MDP.

- (7) Students are required to register for MDP in the first semester they are accepted. Otherwise, they forfeit their right to register.

(4) The student who completes the MDP is not awarded a certificate before having earned the right to graduate from the major program.

(5) Students who have the right to graduate from the major program and have not yet completed the MDP are granted an additional period of two semesters at the most, with the decision of the relevant administrative board. At the end of this period, students who cannot successfully complete the MDP courses are dismissed from the program.

(6) The procedures of students who have the right to graduate from their major program but cannot complete the MDP are carried out by the faculty to which MDP is affiliated.

(7) When these students are entitled to graduate from the MDP, they also receive the MDP certificate.
